History

Methodist Pilley Institute (MPI) was established in April 1991, succeeding Pilley Memorial Secondary School that was established to cherish the loving memory of Mr. John A. Pilley; a great American missionary, who for the love of Christ toiled selflessly for the enlightenment of the people in the Central region.

It is the earliest higher learning institute in Sibul, Sarawak. The Institute, with its own campus of 3.5 acres situated away from commercial and congested areas, provides a pleasant and conducive environment for higher learning. MPI has been making rapid progress since its establishment. At present, it has become a distinguished institution of higher learning.

All commencing students who have been given a formal written offer by the Institute and who have not yet enrolled will have the option to defer this offer for one academic semester to a maximum of three academic semesters (one academic year). Students who enroll in the Institute may apply to take leave from studies at any time. The deferment or leave from studies period will not be counted as part of the maximum period (5 years) of registration. Students must complete "Application for Deferment or Leave from Studies Form," obtain approval from the HOD, then submit the form to the Registrar Office.
2. Deferment or leave from studies may be defined as the approved period of non-study requested by a student.

- 2.1 **Deferment** - students who have received a written offer of a place in a programme will be granted deferment on application. The maximum period of deferment will be 12 months.
- 2.2 **Leave from studies** – when enrolled, a student may apply for leave from studies extending for at least one academic semester and up to one academic year. Request for subsequent leave from studies will be scrutinized more closely but may be considered on a case-by-case basis and accepted on grounds such as: health problems, financial hardship, or clear loss of motivation. Absence of two academic semesters without notification will result in automatic termination of studies. Candidates in such situations may need to re-apply as new students for other programmes in the Institute.

Section 8: Withdrawal

A student who wishes to completely withdraw from the Institute before the completion of course must complete the Intend to “Discontinuation of Studies Form.” S/he may be asked to participate in an exit interview with the appropriate personnel. When the documents are properly filled in and processed through the Office of the Registrar, the withdrawal is completed.

Section 9: Registration of Subjects

Students, with the guidance of their advising lecturers or mentors, are to monitor their own progress and to fulfil the academic requirements in the diploma enrolled. The timetable of the subsequent semester is made available before the end of each semester. Students should consult with their advisors to select subjects to be taken in the following semester. Allocation of seats for each class schedule is based on first come first served basis.

Section 10: Add, Drop or Change of Subject(s)

In case students wish to add, drop or change subjects enrolled, they need to fill in “Subject Add/Drop Form” and obtain approval from their mentors. The deadline for such changes is 7 working days after the classes commence during the long semesters, and 5 working days during the short semester. If students have to add/drop subject(s) after the deadline, students need to get permission from subject lecturer, mentor, Director of Academic Affairs and the Principal. Penalty will be imposed (RM50 for each transaction per subject, e.g. to drop 1 subject RM50, to add 1 subject RM50).

Section 11: Audit (Enrolling in a class, but not for credit)

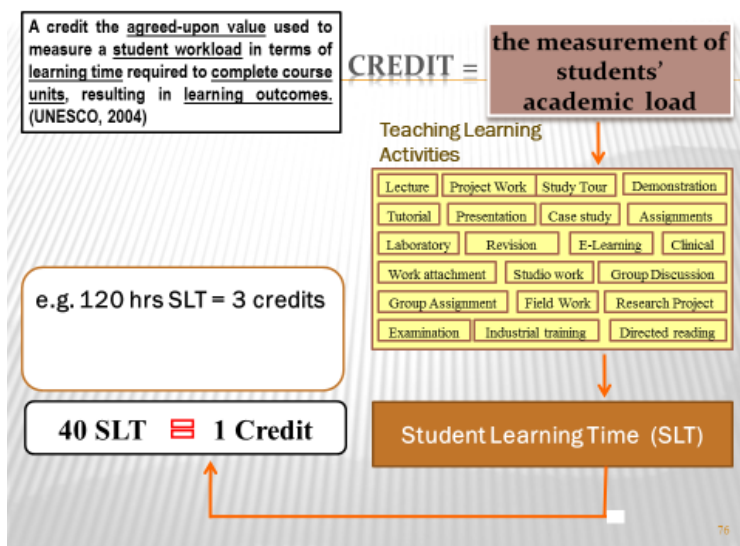

Students can audit any course they wish by paying full tuition fees for the particular subject. They may change their enrolment status of a particular subject from ENROLLED to AUDIT **three weeks** before the commencement of end semester exams if deemed desirable by getting permission from the lecturer and filling up an AUDIT REQUEST form. Audit classes do not count towards eligibility, financial aid, or graduation requirements.

Section 12: Course cancellation policy

2. As a general principle, MPI reserves the right to cancel or reschedule any course if we have an insufficient enrolment or other unforeseen circumstances or for any other reason we feel is justified. Should MPI cancel or reschedule a course, registrants will be notified three (3) days in advance of the first class meeting.
 - 2.1 All students are required to provide -at the time of registration- a secondary point of contact for MPI to contact and notify of the cancellation as well in case the first notification cannot reach the registered attendee.
3. In the event of such a cancellation, MPI's liability is limited to a refund of full course fee (if payment made) only. MPI shall not be responsible for any loss, damage, or liability resulting to students or their parents/employers as a result of a cancellation.
4. During the academic year, this cancellation procedure may be modified to reflect the need for students to complete diploma/degree/professional qualification requirements. Courses with low enrolment may not be cancelled if they are necessary for major completion and/or are the only courses offered in the discipline during that semester.
5. MPI reserves the right to change our course cancellation policy at any time without notice.

- 4.3 In determining a show cause application, the Head of dept. may consider –
 - 4.3.1 the circumstances contributing to the applicant's continued poor academic progress; and
 - 4.3.2 the steps taken by the applicant to remediate their academic progress following receipt of the warning in a previous semester of study.
- 4.4 Before determining a show cause application, the applicant must attend an interview with the HOD or nominee, to discuss the applicant's academic performance to date only if the applicant was required to show cause under these rules in the previous semesters of study.
- 4.5 An applicant undertaking a dual programme may, in the show cause application, seek permission to remain enrolled in the dual programme or either of the programmes contributing to the dual programme.
- 4.6 The HOD may impose conditions, whether or not a show cause application is approved, with respect to academic rehabilitation or other conditions deemed necessary in the circumstances.
- 4.7 If the HOD imposes conditions under this rule, the HOD must —
 - 4.7.1 specify a time within which the applicant must comply with the conditions; and
 - 4.7.2 notify the applicant in writing of the conditions imposed and the time within which they must be complied with.

- 4.8 The HOD may refuse a show cause application where an applicant has not complied with a condition imposed under this rule within the time specified or to the satisfaction of the HOD.
- 4.9 The HOD must approve a show cause application where an applicant has complied with all conditions imposed under these rules within the time specified and to the satisfaction of the HOD.
- 4.10 Where a show cause application is not submitted in accordance with rule 4.2 or a show-cause application is refused **enrolment will be cancelled.**

5. Appeal to Academic Committee

- 5.1 A person dissatisfied with any action taken in relation to enrolment under these rules may appeal to the academic committee by notice in writing given to the academic registrar within **10 business days** of the receipt of the document notifying that the action has been taken.
- 5.2 Academic committee has full power to –
- 5.2.1 uphold or dismiss the appeal; or
- 5.2.2 impose such conditions as it may determine whether or not an appeal was upheld or dismissed.

6. Subsequent application

- 6.1 A person who –
- 6.1.1 is required to show cause why enrolment should not be cancelled under rules 3 or 4; or
- 6.1.2 (i) is required to show cause why enrolment should not be cancelled under rules 4; and
(ii) a show cause application is refused; or
- 6.1.3 has had an appeal of the decision to refuse a show cause application under rule 5 dismissed, may not apply for permission to re-enrol until the same semester of the following year subject to within the time limit of the said programme from the commencement of first semester.

Example –

A student is refused enrolment based on poor academic progress in Semester 2, 2011. The student seeks permission to re-enrol for semester 1, 2012 and is refused and unsuccessfully appeals the decision. The earliest semester that the student can next seek permission to re-enrol in is semester 1, 2013.

- 6.2 Despite rule 6.1, the Director of Student Affairs may, in exceptional circumstances, reduce the period of interruption by permitting a student to re-enrol before the same semester of the following year **subject to within the time limit of the said programme from the commencement of first semester.**

7. Breach of condition of enrolment

A person who fails to comply with any condition of continued enrolment or re-enrolment imposed under this Part may be refused further enrolment.

Section 17: Academic Honesty

1. MPI presents this policy as part of its effort to maintain the integrity of its academic processes. Academic honesty is a priority of the entire Institute community, and a commitment to it must involve students, faculty members, and administrators. Thus, the Institute expects all students to maintain high standards or ethics in their academic activities.
2. Academic dishonesty involves acts that may subvert or compromise the integrity of the educational process at MPI. These include, but are not limited to, attempting any of the following:
 - 2.1 Cheating and/or plagiarism in assignments or examinations.
 - 2.2 Unauthorized collaboration with another person.
 - 2.3 Copying from another student's paper during an examination.
 - 2.4 Using any materials that are not authorised by the instructor for use during an examination.
 - 2.5 Sabotaging another student's work.
 - 2.6 Committing any wilful act of dishonesty that interferes with the operation of the academic process.
 - 2.7 Altering grades or official records.
 - 2.8 Facilitating or aiding in any act of academic dishonesty.
3. Sanctions for student's academic dishonesty vary according to the nature and the seriousness of the offence. Sanctions may include, but not limited to the following: recording an F (Failure) for a particular test, examination, course; requiring a student to redo an assignment; suspension for a period of time; or expulsion from the Institute. ***In particular, if a student is caught cheating during test, mid-semester exams and/or final exam, s/he will be GIVEN a "Fail" for the particular subject for that semester.***
4. The Institute reserves the right to exclude any student whose conduct or academic standing it regards as undesirable or unacceptable, and without assigning any further reason therefore; in such cases the fees due or which may have been paid in advance to the Institute will not be remitted or refunded in whole or in part.
5. Any student under disciplinary suspension shall not be allowed on campus except for official business.

Section 18: Appeal of Academic Decisions

1. Students are responsible for reviewing and abiding by the college's academic policies and procedures. Students are responsible for their academic choices and for meeting the standards of academic performance established for each study or course in which they enroll.
2. On occasion, a student may disagree with the academic decision of a faculty member or academic professional, administrator or committee. The college provides an appeals process for the student to request reconsideration of an academic decision.
3. Appeals are petitions to change a decision rendered about an academic matter. The basis for a student's appeal of an academic decision may be either that the academic judgment was unfair in the view of the student or that the college's academic policies were applied incorrectly in the view of the student.

Section 19: Procedures for Appeals of Academic Decisions

The college appeals process includes an informal resolution procedure as well as a procedure for formal appeal of an academic decision. The college strongly encourages the student to attempt an informal resolution before making a formal appeal.

1. Procedure for Informal Resolution

- 1.1 The informal resolution process includes two possible steps:
 - 1.1.1 The student should discuss the matter directly with the party who made or represented the academic decision (tutor, lecturer, etc.) and make a reasonable effort to resolve the issue. The student must begin such an informal resolution process within 30 days after academic result had been published. (Throughout this document, read days as calendar days.)
 - 1.1.2 If no resolution is reached through the first step, or if the student is uncomfortable trying to resolve the issue directly with the appropriate party, the student should request informal resolution by the Department Head or programme director (or designee). This step must occur within 45 days after academic result had been published.
- 1.2 The department head or programme administrator discusses the academic decision with the student and listens to the student's perspective on the situation, and may gather additional relevant information. Then he or she attempts to facilitate understanding and acceptance by the student of the original decision or agreement by the parties to an alternative resolution, as appropriate. The department head or programme administrator does not play a decision-making role; rather, he or she facilitates a resolution when possible.

2 Procedure for Formal Appeal

- 2.1 A student may initiate a formal appeal of an academic decision within 60 days of receipt of the decision, whether or not he or she has attempted an informal resolution as described previously. An academic review committee, described below, considers appeals of academic decisions.
 - 2.1.1 The student submits a written appeal to the department head or programme administrator and includes in it: a full description of the academic decision and the basis for the student's appeal for reconsideration, a statement of the remedy the student is seeking, any supporting documents, and information on when and with whom the student may have attempted any informal resolution.
 - 2.1.2 The department head or administrator transmits the appeal to the academic committee (AC) and provides a copy to any other relevant parties. The department head or administrator should take these steps within seven days of receiving the appeal. He or she ensures that the AC review takes place in a timely manner.
- 2.2 **The Academic Committee**
 - 2.2.1 The AC consists of the Principal, the Deputy Principal, Director of Student Affairs, all Department Heads, and the Registrar.
 - 2.2.2 The AC may obtain additional relevant information before or after a hearing. Academic committee consideration of the appeal focuses only on the student's claim of unfairness or incorrect application of college policies.

2.3 Initial AC Review

- 2.3.1 Based on its initial review, the AC may return an appeal to the student for further information or clarification. If the appeal is returned for further information or clarification, the student must submit the requested information or revision within 15 days for the appeal to be heard.
- 2.3.2 Upon review of the initial or resubmitted appeal, the AC may determine that there is no basis for a claim of unfairness or incorrect application of college policies and refuse to hear the appeal.
- 2.3.3 The AC should convey a decision not to hear an appeal within seven days of receiving the initial or resubmitted appeal.

2.4 AC Hearing

- 2.4.1 Each party to an appeal has a right to a meaningful opportunity to be heard and to respond to information and documentation presented. The chair of the AC will ensure a fair and timely hearing of the information and produce an accurate record of the hearing.
- 2.4.2 The AC should schedule a hearing within 30 days of receipt of an appeal to consider information relevant to the appeal. A hearing may take the form of a meeting, conference call or videoconference, at the discretion of the AC.
- 2.4.3 The student may attend the hearing and present his or her case directly to the AC. Likewise, the individual or a representative of the party responsible for the original decision may also attend the hearing and present relevant information. A student may have an advisor at the hearing; however, the advisor may not participate directly in the hearing.

2.5 Following a hearing, the AC deliberates in closed session. Decisions are made by majority vote unless otherwise noted. The AC may:

- 2.5.1 Uphold the original decision,
- 2.5.2 Refer the decision back to the individual or committee making the original academic decision for reconsideration based upon AC findings regarding fairness and/or application of college policy, or
- 2.5.3 Revise or overturn the original decision, which requires a unanimous vote by the AC. The AC should provide a written decision and rationale for the decision to the student and other relevant parties within seven days of the hearing.

2.6 Reconsideration by original decision-maker. If the AC refers the decision back for reconsideration, the individual or party making the original decision reviews the situation and may either affirm the original decision or issue a new decision. The individual or committee should convey the result in writing to the student and other relevant parties within 30 days of the referral.

2.7 Further Appeal. The student may appeal either a decision made by the AC, including one not to hear an appeal, or a decision by an individual or committee following a reconsideration of the original decision. The written appeal is to the center or programme administrator.

- 2.7.1 The student must submit any further appeal in writing to the department head or programme administrator within 30 days of transmittal of an AC decision or a reconsideration decision, and must include an explanation or justification for the appeal.

- 2.7.2 The department head or programme administrator should notify the other relevant parties within seven days of receiving an appeal. Those parties should provide any written response within 15 days.
- 2.7.3 The department head or programme administrator should provide a written decision and rationale within seven days of receiving responses to the appeal. The written decision is conveyed to the student with copies to the other relevant parties.

Section 21: Student Feedback Procedure

1. Introduction and definitions
We distinguish between complaints and appeals, and there are separate procedures for dealing with each.

2. Complaints
A complaint may be defined as "an expression of dissatisfaction that needs a response". The expression of dissatisfaction may take the form of an informal, verbal complaint or a formal, written complaint.

The Students' Complaints Procedure which is set out below should be used by students to pursue complaints about most matters concerning both teaching & learning (e.g. teaching facilities, supervision arrangements etc) and non-academic issues (e.g. support services, accommodation etc).

The Students' Complaints Procedure may not be used to challenge academic decisions about performance and progress - see "Appeals" above.

2.1 Level 1

- 2.1.1 Wherever possible complaints should be raised immediately with the member of staff responsible, or with one of the support services below, with the aim of resolving the problem directly and informally:
 - a. One of your Student Mentors
 - b. The Director of Student Operations

- 2.1.2 Level 1 will generally be an oral process.

- 2.1.3 If you remain dissatisfied with the response to your complaint at Level 1, you should use Level 2 of the process.

2.2 Level 2

- 2.2.1 Where it has not been possible to resolve matters at Level 1 you should write to the Principal by filling up a Student Feedback Form which can be obtained from the Administrative Office and Library/ google form. In order for your complaint to be properly investigated it is essential that you are specific about the cause and nature of your complaint. You should present full details, including your name and term-time address and include all relevant documents or evidence of the incident. You should detail what attempts you have already made to resolve the complaint, and state what outcome and remedy you are seeking.
- 2.2.2 Formal (Level 2) complaints should be lodged within three months of the conclusion of the informal (Level 1) phase. Complaints received later than this will not be considered. You should expect to receive an acknowledgement of the receipt of your complaint within five working days.
- 2.2.3 Your complaint, and all relevant documentation, will be forwarded to your Director of Academic Affairs (for an academic complaint) or to the Director of Administration (for a non-academic complaint).
 - a. Academic complaints relate to issues that have a direct effect on the provision of teaching, learning, research and supervision.

- b. Non-academic complaints usually relate to issues connected with College services but also cover any inappropriate behaviour from College staff, including allegations of behaviour which is discriminatory or harassing.

If the Director of Academic Affair or Director of Administrative has already been involved at Level 1, the deputy principal/principal will deal with the Level 2 investigation.

- 2.2.4 You will be informed, in writing, of the outcome of your complaint. It is our aim to resolve most complaints at Level 2 within 28 working days. You will be informed if, for any reason, there is likely to be any delay in the process.

2.3 Level 3

- 2.3.1 In the event that you remain dissatisfied with the outcome of your complaint at Level 2, your complaint can be passed to the Management Team for final internal review. You should lodge your request for Level 3 review of your complaint within one month of receiving the outcome of the Level 2 investigation. Requests for review received later than this will not be considered.

- 2.3.2 Requests to review the outcomes of Level 2 investigations will be considered in terms of whether any of these conditions are met:

- a. There were procedural irregularities in the investigation of the complaint; or
- b. Fresh evidence can be presented which was not or could not reasonably have been made available to the investigator at Level 2; or
- c. The finding of the investigation was against the weight of the evidence.

- 2.3.3 If the Team is satisfied that any of the above conditions, the Team will undertake a further investigation of the complaint.

- 2.3.4 You will be notified of the outcome of the investigation of the complaint at Level 3 in writing.

3. General Principles

- 3.1 As a general principle MPI expects that complaints will be dealt with informally in the first instance. Many complaints can be dealt with quickly and effectively in this manner without the need to follow formal procedures. This complaints procedure has been designed with this in mind.

- 3.2 MPI is committed to providing a high quality service to its students and you are encouraged to let it know when there is cause for concern or a need for improvement. However, MPI will not accept complaints which are frivolous (unfounded, trivial), or malicious (with vindictive motivation).

- 3.3 You should be assured that no complainant will be disadvantaged by having raised a complaint. Privacy and confidentiality will be maintained in the handling of complaints except where disclosure is necessary to progress the complaint. It is MPI's expectation that the confidentiality of any documentation generated by a complaint will be respected by all parties.

- 3.4 If you are considering making a complaint you are strongly advised to talk to one of the following. They can advise you on how to deal with your complaint, help to resolve it informally and, if necessary, support you in the process of making a formal complaint.

- a. One of your Mentors
 - b. The Director of Student Operations
- 3.5 The following list indicates examples of the type of complaint covered by the procedure:
- a. Poor teaching or supervision
 - b. Misleading information in prospectuses or in advertising or promotional material
 - c. A failing in academic or non-academic service(s)
 - d. Inadequate facilities
 - e. The behaviour of a member of MPI staff
- 3.6 The following are not covered by the procedure:
- a. A request for a review of a decision of an academic body (e.g. Examination Board) regarding student progression, assessment and award. This is defined as an Appeal and is dealt with under the separate Appeals Procedure.
 - b. Faulty and maintenance work on campus facilities & wifi connection.
 - c. Complaint against another student.
- 3.7 It is important to remember that complaints will not always produce the outcome preferred by the complainant. There may be a number of reasons for this, including lack of evidence to substantiate the complaint or the fact that circumstances beyond the control of the Institute may affect the level of service provided. However, whatever the decision, you will be informed of the result of your complaint in writing and will be provided with the reasons for the outcome.

Applicable to ACCA students only, if you have exhausted both your learning provider complaint's process and ACCA's, you can escalate to the appropriate regulator. Details of which can be found on the ACCA website at the following link:

<https://www.accaglobal.com/gb/en/footer/toolbar/contactus/connect/unhappy.html>

- 3.8 The Director of Student Operations will be responsible for making an annual report thus providing a qualitative and quantitative record of the number of formal written complaints received, actions taken and/or proposals for future improvements to services or changes to policies or procedures.
4. Feedback and Suggestions
- Sometimes a student may not wish to make a formal complaint, but wants to make the Institute aware of an issue which could benefit from improvement. Sometimes a student may wish to highlight a particularly commendable level of service, and which might with benefit be introduced elsewhere. In either case we encourage students to do this, and all such suggestions will be carefully and positively received and acknowledged. Students are invited to write to the appropriate Head of Department.
5. Publicising Our Procedures
- Complaints and appeals form part of Methodist Pilley Institute's process of quality review and improvement and are considered as providing valuable feedback rather than criticism. We will widely publicise information about them to students and staff.

Student Evaluation of Teaching and Learning Experience (SETLE)

SETLE is an online survey that solicits student's feedback on various aspects relating to the teaching and learning experience in MPI. It allows for reflections on strengths and weaknesses to further enhance effectiveness in our teaching and management accordingly.

There are 3 parts in the evaluation:

- Part A - Evaluation of Teaching
- Part B – Student Self-Evaluation
- Part C – Other Suggestions/ Comments

The evaluation does not affect a student's grades in any way. It is for the purpose of further enhancement in teaching and learning. Complete results of the evaluation are not released to anyone until after final grades are released.

Students' answers to the evaluation are confidential and anonymous. Student IC or passport no. is used as signature to ensure that only registered students complete the evaluation and that no one completes the same evaluation more than once.

The evaluation is open to students two or three weeks before the final exam. New users have to sign up first by entering their own username, password and email. If the signing up is successful, the username and the password will be emailed to the users, so that the users can retrieve them in future.

There are two ways to access SETLE:

<http://evaluation> (in campus)

<https://www2.pilley.edu.my:8585/evaluation> (off campus)

(Secure page might appear. Please click "Advanced" and "Proceed", before SETLE main page appears)

Students are required to complete the evaluation before they are allowed to do pre-enrolment of subjects and check the final results through UCMS.

SETLE is administrated by MPI's QA Department and IT Department. For further information and inquiry, please refer SETLE main page or contact QA Department/ IT Department personnel.
