History

Methodist Pilley Institute (MPI) was established in April 1991, succeeding Pilley Memorial Secondary School that was established to cherish the loving memory of Mr. John A. Pilley; a great American missionary, who for the love of Christ toiled selflessly for the enlightenment of the people in the Central region of Sarawak.

It is the earliest higher learning college in Sibu, Sarawak. MPI, with its own campus of 3.5 acres situated away from commercial and congested areas, provides a pleasant and conducive environment for higher learning. MPI has been making rapid progress since its establishment. At present, it has become a distinguished institution of higher learning.

Vision

Inspired to Learn, Aspire to Live!

Mission

To produce ethical and socially-responsible citizens and leaders by providing quality, wholesome and affordable education.

Motto

For the glory of God, and the service of man

MPI is committed to providing students a rigorous academic programme in a supportive, encouraging environment. The goal is to provide opportunities for intellectual, spiritual, social and cultural development. MPI seeks to strengthen students' intellectual powers that include the ability to think, to speak and to write with precision, depth, as well as the capacity to perceive and explore fallacious reasoning.

To graduate ethical, socially responsible citizens and leaders for the global community, MPI depends upon a faculty and staff who are committed to students' success. We express this commitment by setting demanding standards, and we fulfil this commitment by promoting the best in every member of our community.

Student A	1.56	1.87	1.92	Show cause or <i>Termination</i>
Student B	1.56	1.94	2.14	Continue Study

- 6) Effective January 2024 semester, students must score a minimum 50% out of 100% in the final exam/final assessment, failing which the final total marks for the subject will be capped at 40 marks.
- 7) Students whose total marks from continuous assessments are less than 50% are not eligible to take the supplementary examination.

Scenario Student	A Continuous Assessment (CA)	B Final Assessment (FA)	C Overall Total Mark	Final Grade	Eligibility for Supplementary Exam	Remarks
A	30/60 (50%)	20/40 (50%)	50%	C	NA	Met all the conditions: A, B & C
B	34/60 (56%)	16/40 (40%)	50%	C	NA	Met all the conditions: A, B & C
C	24/60 (40%)	16/40 (40%)	40%	E	YES	Met the conditions for A & B but not C, OM <50%
D	42/60 (70%)	14/40 (35%)	56% capped to 40%	E	YES	Met the condition for A but not B, Failed FA
E	21/60 (35%)	0	21%	F	NO	Failed CA, barred for FA
F	24/60 (40%)	15/40 (38%)	39%	F	NO	Not met the minimum of 40% for Eligibility for Supp Exam

Scenario A to C, indicate that students need to get at least 50% in overall total mark to achieve a PASS grade. Overall marks (CA and FA marks) fall between 40% to 49%, students are eligible to sit for a supplementary examination (for examination based FA).

- 8) A student is allowed to sit for only one supplementary examination per subject. Eligibility for the supplementary examination is limited to subjects in which the student has received an E grade in Diploma programmes or a C-/D grade in Degree programmes.

Section 18: Academic Honesty

1. MPI presents this policy as part of its effort to maintain the integrity of its academic processes. Academic honesty is a priority of the entire college community, and a commitment to it must involve students, faculty members, and administrators. Thus, MPI expects all students to maintain high standards or ethics in their academic activities.
2. Academic dishonesty involves acts that may subvert or compromise the integrity of the educational process at MPI. These include, but are not limited to, attempting any of the following:
 - 2.1 Cheating and/or plagiarism in assignments or examinations.
 - 2.2 Unauthorized collaboration with another person.
 - 2.3 Copying from another student's paper during an examination.
 - 2.4 Using any materials that are not authorized by the instructor for use during an examination.
 - 2.5 Sabotaging another student's work.
 - 2.6 Committing any wilful act of dishonesty that interferes with the operation of the academic process.

4. MPI reserves the right to exclude any student whose conduct or academic standing it regards as undesirable or unacceptable, and without assigning any further reason therefore; in such cases the fees due or which may have been paid in advance to MPI will not be remitted or refunded in whole or in part.
5. Any student under disciplinary suspension shall not be allowed on campus except for official business.

Section 19: Appeal of Academic Decisions

1. Students are responsible for reviewing and abiding by MPI's academic policies and procedures. Students are responsible for their academic choices and for meeting the standards of academic performance established for each study or course in which they enrolled.
2. On occasion, a student may disagree with the academic decision of a faculty member or academic professional, administrator or committee. MPI provides an appeals process for the student to request reconsideration of an academic decision.
3. Appeals are petitions to change a decision rendered about an academic matter. The basis for a student's appeal of an academic decision may be either that the academic judgment was unfair in the view of the student or that of MPI's academic policies were applied incorrectly in the view of the student.

Section 20: Procedures for Appeals of Academic Decisions

MPI appeal process includes an informal resolution procedure as well as a procedure for formal appeal of an academic decision. MPI strongly encourages the student to attempt an informal resolution before making a formal appeal.

1. Procedure for Informal Resolution

1.1 The informal resolution process includes two possible steps:

1.1.1 The student should discuss the matter directly with the party who made or represented the academic decision (tutor, lecturer, etc.) and make a reasonable effort to resolve the issue. The student must begin such an informal resolution process within 30 days after academic result had been published.

1.1.2 If no resolution is reached through the first step, or if the student is uncomfortable trying to resolve the issue directly with the appropriate party, the student should request informal resolution by the Head of Department or Programme Leader (or designee). This step must occur within 45 days after academic result had been published.

1.2 The Head of Department or Programme Leader discusses the academic decision with the student and listens to the student's perspective on the situation and may gather additional relevant information. Then he or she attempts to facilitate understanding and acceptance by the student of the original decision or agreement by the parties to an alternative resolution, as appropriate. The Head of Department or Programme Leader does not play a decision-making role; rather, he or she facilitates a resolution when possible.

2. Procedure for Formal Appeal

2.1 A student may initiate a formal appeal of an academic decision within 60 days of receipt of the decision, whether or not he or she has attempted an informal resolution as described previously. An academic review committee, described below, considers appeals of academic decisions.

2.1.1 The student submits a written appeal to the Head of Department or Programme Leader and includes in it: a full description of the academic decision and the basis for the student's appeal for reconsideration, a statement of the remedy the student is seeking, any supporting documents, and information on when and with whom the student may have attempted any informal resolution.

2.1.2 The Head of Department or Programme Leader transmits the appeal to the Academic Board and provides a copy to any other relevant parties. The Head of Department or Programme Leader should take these steps within seven days of receiving the appeal. He or she ensures that the Academic Board review takes place in a timely manner.

2.2 The Academic Board

2.2.1 The Academic Board consists of the Principal, Director of Academic Affairs, Heads of Department, Programme Leaders and the Registrar.

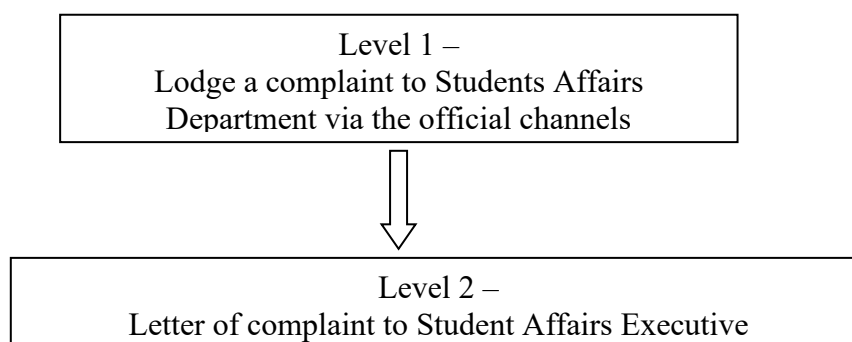

- 2.2.2 The Academic Board may obtain additional relevant information before or after a hearing. Academic Board consideration of the appeal focuses only on the student's claim of unfairness or incorrect application of college policies.
- 2.3 Initial Academic Board Review
 - 2.3.1 Based on its initial review, the Academic Board may return an appeal to the student for further information or clarification. If the appeal is returned for further information or clarification, the student must submit the requested information or revision within 15 days for the appeal to be heard.
 - 2.3.2 Upon review of the initial or resubmitted appeal, the Academic Board may determine that there is no basis for a claim of unfairness or incorrect application of college policies and refuse to hear the appeal.
 - 2.3.3 The Academic Board should convey a decision not to hear an appeal within seven days of receiving the initial or resubmitted appeal.
- 2.4 Academic Board Hearing
 - 2.4.1 Each party to an appeal has a right to a meaningful opportunity to be heard and to respond to information and documentation presented. The chair of the Academic Board will ensure a fair and timely hearing of the information and produce an accurate record of the hearing.
 - 2.4.2 The Academic Board should schedule a hearing within 30 days of receipt of an appeal to consider information relevant to the appeal. A hearing may take the form of a meeting, conference call or video conference, at the discretion of the Academic Board.
 - 2.4.3 The student may attend the hearing and present his or her case directly to the Academic Board. Likewise, the individual or a representative of the party responsible for the original decision may also attend the hearing and present relevant information. A student may have an advisor at the hearing; however, the advisor may not participate directly in the hearing.
- 2.5 Following a hearing, the Academic Board deliberates in closed session. Decisions are made by majority vote unless otherwise noted. The Academic Board may:
 - 2.5.1 Uphold the original decision,
 - 2.5.2 Refer the decision back to the individual or Academic Board Committee making the original academic decision for reconsideration based upon Academic Board findings regarding fairness and/or application of college policy, or
 - 2.5.3 Revise or overturn the original decision, which requires a unanimous vote by the Academic Board. The Academic Board should provide a written decision and rationale for the decision to the student and other relevant parties within seven days of the hearing.
- 2.6 The decision by the Academic Board Committee is the final decision of MPI. No appeal for the decision is further considered.

Section 21: Student Feedback Procedure

1. Introduction and definitions
 - 1.1 We distinguish between complaints and appeals, and there are separate procedures for dealing with each.
2. Channels for students feedback

3. Complaints
 - 3.1 A complaint may be defined as "an expression of dissatisfaction that needs a response". The expression of dissatisfaction may take the form of an informal, verbal complaint or a formal, written complaint.
 - 3.2 The Students' Complaints Procedure which is set out below should be used by students to pursue complaints about most matters concerning both academic issues (teaching & learning processes, facilities, supervision arrangements etc) and non-academic issues (e.g. campus students support services, accommodation etc).
 - 3.2.1 Academic complaints relate to issues that have a direct effect on the provision of teaching, learning, research and supervision.
 - 3.2.2 Non-academic complaints usually relate to issues connected with college services which also cover any inappropriate behaviour from college staff, including allegations of behaviour which is discriminatory or harassing.
 - 3.3 The Students' Complaints Procedure is not applicable for challenging students' academic decisions. - see Section 18 and Section 19.

Below is the procedural flow chart for MPI student's complaints

- 4.3 You should be assured that no complainant will be disadvantaged by having raised a complaint. Privacy and confidentiality will be maintained in the handling of complaints except where disclosure is necessary to progress the complaint. It is MPI's expectation that the confidentiality of any documentation generated by a complaint will be respected by all parties.
- 4.4 If you are considering making a complaint you are strongly advised to talk to one of the following. They can advise you on how to deal with your complaint, help to resolve it informally and, if necessary, support you in the process of making a formal complaint.

 - b) Student Affairs Executive
- 4.5 The following list indicates examples of the type of complaint covered by the procedure:
- a) Poor teaching or supervision
 - b) Misleading information in prospectuses or in advertising or promotional material
 - c) A failing in academic or non-academic service(s)
 - d) Inadequate facilities
 - e) The behaviour of a member of MPI staff
- 4.6 The following are not covered by the procedure:

- 4.7 Level 1- Student Affairs Department
- 4.7.1 Wherever students complain to the member of student affairs staff via the Student's Affairs official channel, the student affairs department is committed to solve our students' issues at every possible opportunity at soonest possible. We aim to respond to all complaints within five working days.
- 4.7.2 Students can direct their concerns via email: student.feedback@pilley.edu.my or by google form.
- 4.7.3 Please provide your full name and contact number in your email. If your enquiry relates to something other than a complaint, it will be re-routed to the appropriate department, which may lead to a delay in any response being provided.
- 4.7.4 If you remain dissatisfied with the responses to your complaint at Level 1, you may refer to Level 2 of the process.
- 4.8 Level 2- Student Affairs Executive
- Where it has not been possible to resolve matters at Level 1, you may write your complaint letter addressing to Student Affairs Executive.
- 4.8.1 You should present full details, including your name and term-time address and include all relevant documents or evident of the incident. You should detail what attempts you have already made to resolve the complaint, and state what outcome and remedy you are seeking.

- 4.8.2 Formal (Level 2) complaints should be lodged within three months of the conclusion of the Level 1 phase. Complaints received later than this will not be considered. You should expect to receive an acknowledgement of the receipt of your complaint within five working days.

5. MPI ACCA student's complaints
Following are the procedures applicable to students enrolling for ACCA professional programs.
 - 5.1 If the student is unhappy with their student learning experience at Methodist Pilley Institute.
 - 5.2 It is intended that the student would make their complaint according to the MPI student feedback procedure (Level 1 & 2);
 - 5.3 If they are still not happy how MPI handled their complaint/appeal and have exhausted the complaints process of MPI, the students could then complain to ACCA. You may bring your concerns through ACCA website:
<https://www.accaglobal.com/gb/en/footer/toolbar/contact-us/connect/unhappy.html>
 - 5.4 If the student is still not happy how MPI handled their complaint and they are also not happy about how ACCA handled their complaint about MPI, then they could contact the regulator through ACCA website:
<https://www.accaglobal.com/gb/en/footer/toolbar/contact-us/connect/unhappy.html>
 6. It is important to remember that complaints will not always produce the outcome preferred by the complainant. There may be a number of reasons for this, including lack of evidence to substantiate the complaint or the fact that circumstances beyond the control of MPI may affect the level of service provided. However, whatever the decision, you will be informed of the result of your complaint in writing and will be provided with the reasons for the outcome.
 7. The Student Affairs Executive will be responsible for making an annual report thus providing a qualitative and quantitative record of the number of formal written complaints received, actions taken and/or proposals for future improvements to services or changes to policies or procedures.

8. Feedback and Suggestions

8.1 Sometimes a student may not wish to make a formal complaint but wants to make MPI aware of an issue which could benefit from improvement. Sometimes a student may wish to highlight a particularly commendable level of service, and which might with benefit be introduced elsewhere. In either case we encourage students to do this, and all such suggestions will be carefully and positively received and acknowledged. Students are invited to write to the appropriate Head of Department.

9. Publicising Our Procedures

9.1 Complaints and appeals form part of Methodist Pilley Institute's process of quality review and improvement and are considered as providing valuable feedback rather than criticism. We will publicise the student complaint procedures (websites, College notice board, student handbook to students and staff).

Appendix 4: Student Evaluation of Teaching and Learning Experience (SETLE)

SETLE is an online survey that collects student feedback on various aspects of the teaching and learning experience at MPI. It helps identify strengths and weaknesses, guiding improvements in teaching and management.

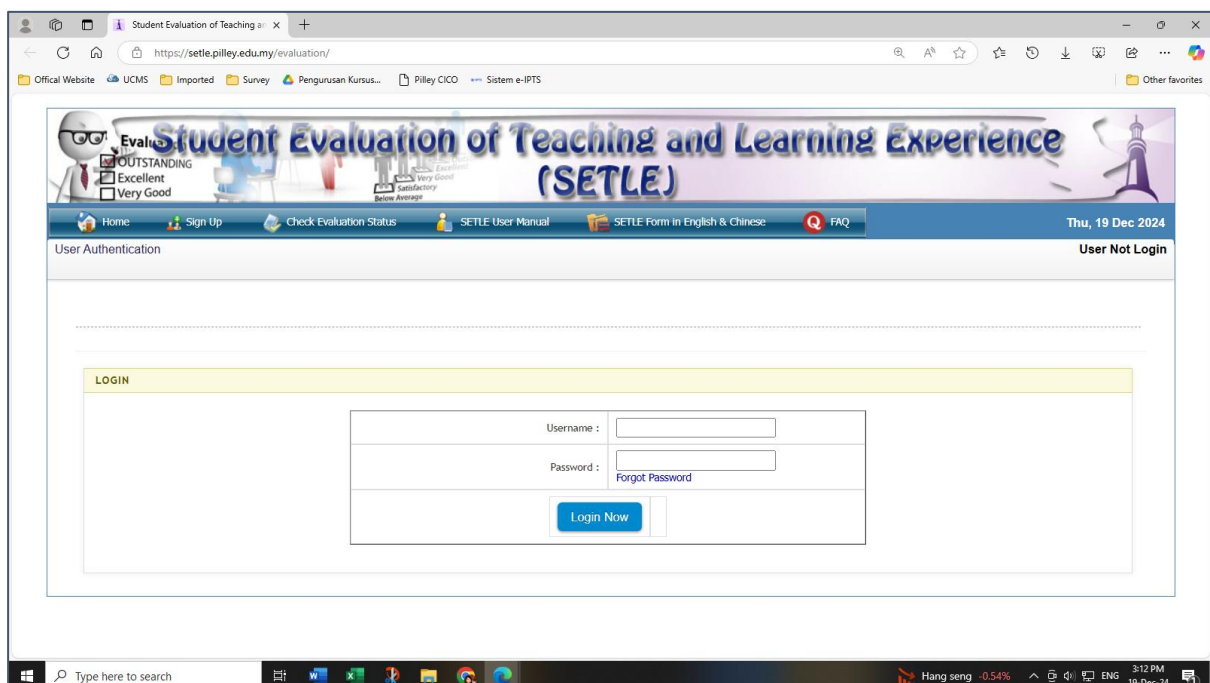

Students can access the SETLE link via the MPI website. Before completing the survey each semester, students must sign up and log in. A SETLE User Manual and FAQ are available on the main page for guidance. The survey responses are confidential and anonymous, with student IC or passport numbers used to ensure only registered students participate and each evaluation is completed only once.

The system is available two to three weeks before final exams, and evaluation results are not released to academic staff until after final grades are posted. Therefore, the evaluations do not influence student grades, and student identities remain anonymous.

The IT Department's system administrator manages the online evaluation system, while the QA staff under the Registrar's Office oversees the survey, analyzes results, and shares them with relevant personnel to enhance MPI's quality.

As the main stakeholders, students can expect MPI to address key issues raised. Responses are available on SETLE and on the notice board outside the Admin Office.

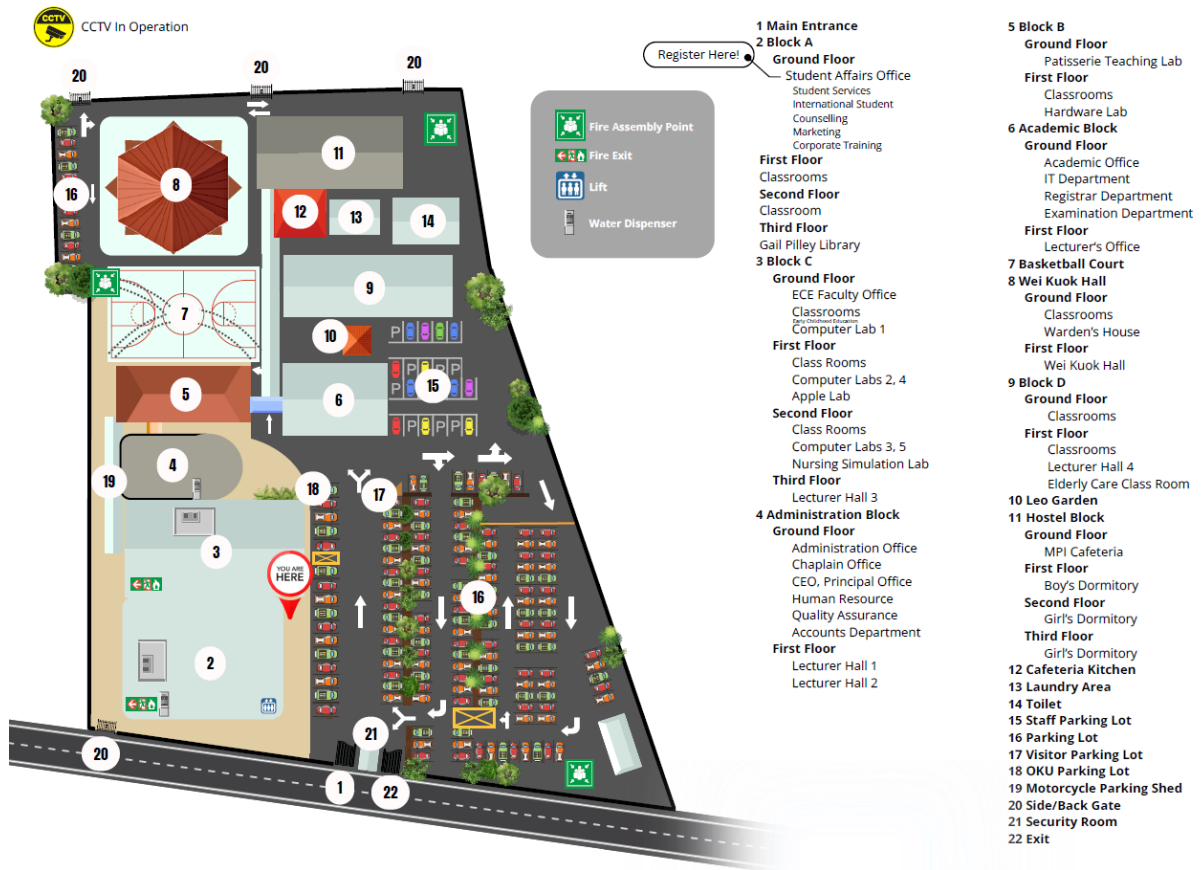

SETLE main page view is as follows (www.pilley.edu.my > Links > SETLE):

The screenshot displays the SETLE main page in a web browser. The page title is "Student Evaluation of Teaching and Learning Experience (SETLE)". The navigation menu includes "Home", "Sign Up", "Check Evaluation Status", "SETLE User Manual", "SETLE Form in English & Chinese", and "FAQ". The current date is "Thu, 19 Dec 2024". The page is titled "User Authentication" and shows "User Not Login". The main content area features a "LOGIN" section with a form containing the following fields and buttons:
